Host Nation Healthcare Experience

The use of Host Nation medical facilities is not new. For many years, Host Nation hospitals have provided emergency care and treatment unavailable at US Military Treatment Facilities. Host Nation medical clinics and hospitals have much in common with those in the United States. Host Nation providers and staff are highly educated professionals who provide excellent medical services. Because we are overseas, remember that healthcare delivery follows the host country's cultural norms. Additionally, Host Nation's privacy standards may differ from what you know you have experienced in the past. Though many Host Nation doctors speak English, their staff may only speak French or Dutch. Patient liaisons are available to assist you. Lastly, please remember that you are a guest in their country.

VEHICLES IN BELGIUM

The SHAPE vehicle/motorcycle registration system is a time-limited registration system, which exempts entitled persons from certain requirements of the Belgian permanent vehicle registration system and issues permanent fuel ration entitlements and temporary fuel ration cards (rental cars). This means since you are temporarily in Belgium you are exempt from road taxes on your first vehicle registration. You are also exempt from import taxes on the used vehicles you imported into Belgium (Section 8).

Important

You must register all vehicles used or located in Belgium within 1 month of the vehicle being imported in Belgium, or procurement in Belgium. It is also mandatory by Belgium Law to de-register any vehicle upon your permanent departure from SHAPE. Until your vehicle is registered, or while you are using a rental car, you may receive a temporary "vehicle-entry" pass from the SHAPE Visitor's Office (Bldg.108) or from the Family Support and Central Processing Branch Registration Section (FSCEP-RGN) Bldg. 210, Room 109-110, in order to enter SHAPE and begin the vehicle registration process.

Before registering your vehicle, if it is older than 4 years, you must pass the Control Technique (CT) inspection. For the time being a CT is not needed for motorcycles motorcycles, even though Belgian authorities might introduce this obligation in the next future. High visibility retro reflective jacket (safety jacket/reflective vest) must be carried inside the motor vehicle when using it. In case of immobilization of a vehicle in an area where waiting and parking are forbidden all vehicle occupants must wear a reflective vest for safety and by law.

Fuel Ration Entitlements

While living in Belgium and assigned at SHAPE, entitled persons are authorized fuel rations as a privilege. To receive your fuel ration entitlement, you must register your vehicle/motorcycle on SHAPE through the Family Support and Central Processing Branch - Registration Section. Remember: the purchase, sharing, transfer and/or resale of rationed items such as Fuel Cards is illegal.
